Series 44 - port

Series 44 - port

Series 44 starboard

Description

The new Series 44 LED Navigation Light is wheelmarked according to EN 14744 for recreational boats and vessels up to 50 m. (according to USCG/IMO COLREG: > 20m). Series 44 is easy to install is based on known technology and have a unique and modern design. All this to meet customer expectations!

Series 44 is a state of the art navigation light with LED optics and high quality technology that ensures safety at sea in all weather conditions. The navigation lights fulfil all requirements of the "International Regulations for Preventing Collision at Sea 1972 (COLREG)", published by the international Maritime Organization (IMO) and local rules. The application is depending on the visibility requirements.

Refit:

To ensure a easy refit, Series 44 is designed with the same footprint as Series 43/Series

This series is available for all markets worldwide.

Series 44

Wheelmark approved LED Navigation lights for waterway and maritime

Technical description

Light source 1 power LED module

Electric Multivolt, invers polarity protection included,

EMC tested

Power Supply 12-24VDC according the ISO 10133 EMC/EMI

according EMC1 for open deck and Bridge.

Installation Easy with Water protected IP67 cable

connections made of stainless steel in "over

flap" housing.

Housing Polycarbonate, black or white, seawater

> resistant, UV-resistant, non-corrosive and non-magnetic, impact and shock resistant. Same footprint and fixing points like S40, S41

and S43.

Dimensions/WeightDimensions: see drawing

Weight: 0,189 kg

Visibility 2 nm

USCG, Wheelmark Approvals and

Warranty 5 years warranty (non-commercial use)

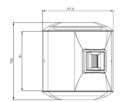

Temperature

range

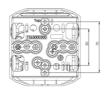

-20°C to +35°C degradation control

Optics and **Electronics** With "sealed for life" technology IP68
